Department of **Health**

# Western Australia Emergency Access Target

## Performance Monthly Report

April 2019

## What is the WA Emergency Access Target (WEAT)?

In January 2016, WA Health system established the WA Emergency Access Target (WEAT) to continue to drive local improvement in patient access to emergency services. This replaced the National Emergency Access Target (NEAT) following the expiry of the Commonwealth National Partnership Agreement on Improving Public Hospital Services in 2015.

The WEAT requires 90 per cent of all patients presenting to a hospital emergency department (ED) to be seen and admitted, transferred or discharged within four hours.

### What hospitals does it cover?

**Child and Adolescent Health Service (CAHS):** Perth Children's Hospital and Princess Margaret Hospital.

**East Metropolitan Health Service (EMHS):** Royal Perth Hospital, Armadale Health Service and St John of God Midland Public Hospital.

**North Metropolitan Health Service (NMHS):** Sir Charles Gairdner Hospital, King Edward Memorial Hospital and Joondalup Health Campus.

**South Metropolitan Health Service (SMHS):** Fiona Stanley Hospital, Rockingham General Hospital and Peel Health Campus.

**WA Country Health Service (WACHS):** Albany Hospital, Broome Hospital, Bunbury Hospital, Busselton Hospital, Carnarvon Hospital, Derby Hospital, Esperance Hospital, Geraldton Hospital, Hedland Health Campus, Kalgoorlie Hospital, Karratha Health Campus, Kununurra Hospital, Narrogin Hospital and Northam Hospital.

### Providing the best care

All hospitals and Health Service Providers (HSPs) continue to examine and improve processes across the entire patient journey, from ED and the wards through to hospital discharge.

In 2017–18, Western Australia was the best performing state for patients treated and admitted, transferred or discharged within four hours.

### What does this report show?

This performance report shows how HSPs (CAHS, EMHS, NMHS, SMHS and WACHS) are progressing towards the WEAT. For April 2019:

- The statewide number of ED attendances increased by 5.0% (3,759) from April 2018 (74,654) compared to April 2019 (78,413).
- The statewide WEAT performance decreased from 78.1% for April 2018 compared to 76.9% for April 2019.
- The table of WEAT performance by HSP and hospital ([page 4](#)) shows that:
  - At HSP level, CAHS (89.5%) was close to achieving the target of 90%.
  - There was an improvement in WEAT performance from April 2018 when compared to April 2019 at the following hospitals:
    - King Edward Memorial Hospital: 94.0% compared to 95.4%.
    - Fiona Stanley Hospital: 66.2% compared to 77.8%.
    - Rockingham General Hospital: 75.8% compared to 78.0%.
    - Peel Health Campus: 67.7% compared to 68.7%.
    - Derby Hospital: 90.9% compared to 93.2%.
    - Karratha Health Campus/Nickol Bay Hospital: 84.8% compared to 86.9%.

- Northam Hospital: 86.0% compared to 89.7%

HSPs continue to drive improvement by implementing strategies that are based upon the foundations contained within the Western Australia Emergency Flow Report (May 2014) and more recently developed improvement strategies.

The report also includes total ED attendances, which show trends in demand, and in hospital mortality for admissions from ED which is monitored to ensure patient care remains of the highest priority.

Refer to the Notes section ([page 34](#)) and the WEAT Reporting Data Definitions and Business Rules ([pages 35 to 37](#)) for information on how to interpret the figures in this report.

## WA Emergency Access Target Performance – April 2019

Health Service Provider	Number of Emergency Department Attendances			Percentage of Emergency Department Attendances with Length of Episode of Four Hours or Less				
	Apr 2018	Apr 2019	Variance	Apr 2018	Apr 2019	Variance <sup>#</sup>		
<b>Child and Adolescent Health Service (CAHS)</b>								
Perth Children's Hospital/PMH <sup>+</sup>	4,649	5,356	↑	15.2%	89.4%	89.5%	↑	0.1%
<b>Total CAHS</b>	<b>4,649</b>	<b>5,356</b>	<b>↑</b>	<b>15.2%</b>	<b>89.4%</b>	<b>89.5%</b>	<b>↑</b>	<b>0.1%</b>
<b>East Metropolitan Health Service (EMHS)</b>

<sup>+</sup> Data prior to June 2018 represents Princess Margaret Hospital and data from July 2018 represents Perth Children's Hospital.

<sup>#</sup> Data prior to August 2018 represents Nickol Bay Hospital and data from October 2018 represents Karratha Health Campus.

## **Child and Adolescent Health Service**

Perth Children's Hospital /  
Princess Margaret Hospital

## Perth Children's Hospital/Princess Margaret Hospital for Children

April 2019		Compared to April 2018	
5,356	total emergency department attendances	↑ 15.2%	increase of 707 more emergency department attendances
89.5%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑ 0.1%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
70.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑ 1.5%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
56.3%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑ 0.7%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
94.5%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓ 0.2%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.0%	in-hospital mortality for admissions from emergency department	↔ 0.0%	no change in in-hospital mortality for admissions from emergency department

**Figure 1: Perth Children's Hospital/Princess Margaret Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## **East Metropolitan Health Service**

Royal Perth Hospital

Armadale Health Service

St John of God Midland  
Public Hospital

## Royal Perth Hospital

April 2019		Compared to April 2018		
5,998	total emergency department attendances	↑	1.6%	increase of 94 more emergency department attendances
67.5%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	8.3%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
50.0%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	12.4%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
38.9%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	2.0%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
83.1%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	6.0%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.7%	in-hospital mortality for admissions from emergency department	↓	0.6%	decrease in in-hospital mortality for admissions from emergency department

**Figure 2: Royal Perth Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Armada Health Service

April 2019		Compared to April 2018		
4,847	total emergency department attendances	↓	0.04%	decrease or 2 less emergency department attendances
79.3%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	0.2%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
41.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	0.8%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
48.1%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	1.0%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
87.3%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	0.4%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
2.0%	in-hospital mortality for admissions from emergency department	↑	0.5%	increase in in-hospital mortality for admissions from emergency department

**Figure 3: Armadale Health Service – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## St John of God Midland Public Hospital

April 2019		Compared to April 2018		
6,273	total emergency department attendances	↑	9.4%	increase of 541 more emergency department attendances
72.0%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	7.7%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
47.4%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	19.5%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
46.2%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	15.8%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
81.8%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	4.3%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.9%	in-hospital mortality for admissions from emergency department	↑	0.1%	increase in in-hospital mortality for admissions from emergency department

**Figure 4: St John of God Midland Public Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## **North Metropolitan Health Service**

Sir Charles Gairdner Hospital  
King Edward Memorial Hospital  
Joondalup Health Campus

## Sir Charles Gairdner Hospital

April 2019		Compared to April 2018		
5,945	total emergency department attendances	↑	6.1%	increase of 340 more emergency department attendances
68.8%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	2.0%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
57.3%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	1.6%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
36.0%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	3.4%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
81.7%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	2.1%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
2.2%	in-hospital mortality for admissions from emergency department	↑	0.1%	increase in in-hospital mortality for admissions from emergency department

**Figure 5: Sir Charles Gairdner Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## King Edward Memorial Hospital

April 2019		Compared to April 2018		
889	total emergency department attendances	↓	0.1%	decrease or 1 less emergency department attendance
95.4%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	1.3%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
85.9%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	8.4%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
75.0%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	2.8%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
96.7%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	0.3%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
1.2%	in-hospital mortality for admissions from emergency department	↑	1.2%	increase in in-hospital mortality for admissions from emergency department

**Figure 6: King Edward Memorial Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Joondalup Health Campus

April 2019		Compared to April 2018		
8,313	total emergency department attendances	↑	1.9%	increase of 151 more emergency department attendances
61.6%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	9.5%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
40.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	11.6%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
62.5%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	0.1%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
70.9%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	10.9%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.7%	in-hospital mortality for admissions from emergency department	↓	0.3%	decrease in in-hospital mortality for admissions from emergency department

**Figure 7: Joondalup Health Campus – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## **South Metropolitan Health Service**

Fiona Stanley Hospital

Rockingham General Hospital

Peel Health Campus

## Fiona Stanley Hospital

April 2019		Compared to April 2018		
9,047	total emergency department attendances	↑	3.8%	increase of 329 more emergency department attendances
77.8%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	11.6%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
64.4%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	19.9%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
46.4%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	2.6%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
86.0%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	7.6%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
1.9%	in-hospital mortality for admissions from emergency department	↓	0.03%	decrease in in-hospital mortality for admissions from emergency department

**Figure 8: Fiona Stanley Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Rockingham General Hospital

April 2019		Compared to April 2018		
4,697	total emergency department attendances	↑	4.2%	increase or 190 more emergency department attendances
78.0%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	2.2%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
46.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	3.2%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
62.5%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	16.3%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
86.4%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	1.3%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
1.4%	in-hospital mortality for admissions from emergency department	↑	0.3%	increase in in-hospital mortality for admissions from emergency department

**Figure 9: Rockingham General Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Peel Health Campus

April 2019		Compared to April 2018		
3,572	total emergency department attendances	↑	5.2%	increase of 175 more emergency department attendances
68.7%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	1.0%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
50.9%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	2.6%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
31.9%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	2.7%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
76.4%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.9%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
1.5%	in-hospital mortality for admissions from emergency department	↑	0.2%	increase in in-hospital mortality for admissions from emergency department

**Figure 10: Peel Health Campus – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Broome Hospital

April 2019		Compared to April 2018		
2,014	total emergency department attendances	↑	2.8%	increase of 54 more emergency department attendances
87.0%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	0.4%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
52.8%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	0.9%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
76.9%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	1.9%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
93.5%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	0.2%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
0.3%	in-hospital mortality for admissions from emergency department	↑	0.01%	increase in in-hospital mortality for admissions from emergency department

**Figure 12: Broome Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Bunbury Regional Hospital

April 2019		Compared to April 2018		
3,484	total emergency department attendances	↑	11.2%	increase of 352 more emergency department attendances
70.1%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	6.9%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
54.8%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	5.4%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
33.3%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	3.9%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
77.6%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	7.2%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
1.0%	in-hospital mortality for admissions from emergency department	↓	0.01%	decrease in in-hospital mortality for admissions from emergency department

**Figure 13: Bunbury Regional Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Busselton Hospital

April 2019		Compared to April 2018		
2,022	total emergency department attendances	↑	9.0%	increase of 167 more emergency department attendances
87.4%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	0.8%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
62.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	7.3%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
61.6%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	9.2%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
92.8%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	0.6%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
2.2%	in-hospital mortality for admissions from emergency department	↓	0.5%	decrease in in-hospital mortality for admissions from emergency department

**Figure 14: Busselton Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Carnarvon Hospital

April 2019		Compared to April 2018		
679	total emergency department attendances	↓	12.6%	decrease or 98 less emergency department attendances
89.7%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	2.6%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
51.7%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	19.5%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
22.2%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	27.8%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
94.3%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.5%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.0%	in-hospital mortality for admissions from emergency department	↓	1.8%	decrease in in-hospital mortality for admissions from emergency department

**Figure 15: Carnarvon Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Derby Hospital

April 2019		Compared to April 2018		
1,038	total emergency department attendances	↓	0.6%	decrease or 6 less emergency department attendances
93.2%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	2.3%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
70.9%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	7.5%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
60.0%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	26.7%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
96.6%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	2.0%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
0.8%	in-hospital mortality for admissions from emergency department	↓	1.2%	decrease in in-hospital mortality for admissions from emergency department

**Figure 16: Derby Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Esperance Hospital

April 2019		Compared to April 2018		
807	total emergency department attendances	↓	2.1%	decrease or 17 less emergency department attendances
84.1%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	2.5%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
44.4%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	15.4%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
20.0%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	5.0%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
91.1%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	1.1%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
2.3%	in-hospital mortality for admissions from emergency department	↑	2.3%	increase in in-hospital mortality for admissions from emergency department

**Figure 17: Esperance Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Geraldton Hospital

April 2019		Compared to April 2018		
2,559	total emergency department attendances	↑	8.8%	increase of 206 more emergency department attendances
85.5%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	2.6%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
73.6%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	10.6%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
38.6%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	9.8%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
89.8%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.1%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.6%	in-hospital mortality for admissions from emergency department	↓	0.05%	decrease in in-hospital mortality for admissions from emergency department

**Figure 18: Geraldton Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on page 34 for additional comments on the figures shown.

## Hedland Health Campus

April 2019		Compared to April 2018		
1,974	total emergency department attendances	↑	3.8%	increase of 72 more emergency department attendances
91.6%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	0.3%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
62.7%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	2.2%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
78.6%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	36.9%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
95.6%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.6%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.4%	in-hospital mortality for admissions from emergency department	↓	0.3%	decrease in in-hospital mortality for admissions from emergency department

**Figure 19: Hedland Health Campus – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Kalgoorlie Hospital

April 2019		Compared to April 2018		
2,048	total emergency department attendances	↑	5.5%	increase of 107 more emergency department attendances
83.9%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	3.1%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
54.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	1.5%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
41.2%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↓	11.2%	decrease in emergency department transfers with LOE of four hours or less <sup>1</sup>
90.5%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	2.5%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.3%	in-hospital mortality for admissions from emergency department	↓	0.1%	decrease in in-hospital mortality for admissions from emergency department

**Figure 20: Kalgoorlie Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Karratha Health Campus/Nickol Bay Hospital

April 2019		Compared to April 2018		
1,674	total emergency department attendances	↑	5.8%	increase of 92 more emergency department attendances
86.9%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	2.1%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
43.1%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	3.7%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
55.2%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	21.8%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
91.7%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.2%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.0%	in-hospital mortality for admissions from emergency department	↓	1.1%	decrease in in-hospital mortality for admissions from emergency department

**Figure 21: Karratha Health Campus/Nickol Bay Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Kununurra Hospital

April 2019		Compared to April 2018	
1,179	total emergency department attendances	↑ 5.8%	increase of 65 more emergency department attendances
91.5%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓ 0.04%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
60.2%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓ 8.9%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
61.5%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑ 34.9%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
95.9%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑ 0.9%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
0.7%	in-hospital mortality for admissions from emergency department	↓ 0.2%	decrease in in-hospital mortality for admissions from emergency department

**Figure 22: Kununurra Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Narrogin Hospital

April 2019		Compared to April 2018		
687	total emergency department attendances	↑	2.2%	increase or 15 more emergency department attendances
86.3%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↓	1.8%	decrease in emergency department attendances with LOE of four hours or less <sup>1</sup>
67.5%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↓	5.8%	decrease in emergency department admissions with LOE of four hours or less <sup>1</sup>
47.4%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	0.3%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
92.1%	emergency department departures with LOE of four hours or less <sup>1</sup>	↓	0.9%	decrease in emergency department departures with LOE of four hours or less <sup>1</sup>
0.8%	in-hospital mortality for admissions from emergency department	↔	0.0%	no change in in-hospital mortality for admissions from emergency department

**Figure 23: Narrogin Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Northam Hospital

April 2019		Compared to April 2018		
967	total emergency department attendances	↑	3.3%	increase of 31 more emergency department attendances
89.7%	emergency department attendances with length of episode (LOE) of four hours or less <sup>1</sup>	↑	3.7%	increase in emergency department attendances with LOE of four hours or less <sup>1</sup>
72.3%	emergency department admissions with LOE of four hours or less <sup>1</sup>	↑	6.7%	increase in emergency department admissions with LOE of four hours or less <sup>1</sup>
73.3%	emergency department transfers with LOE of four hours or less <sup>1</sup>	↑	3.8%	increase in emergency department transfers with LOE of four hours or less <sup>1</sup>
92.6%	emergency department departures with LOE of four hours or less <sup>1</sup>	↑	1.4%	increase in emergency department departures with LOE of four hours or less <sup>1</sup>
4.8%	in-hospital mortality for admissions from emergency department	↑	2.4%	increase in in-hospital mortality for admissions from emergency department

**Figure 24: Northam Hospital – Percentage of ED attendances with length of episode of four hours or less**

See Notes on [page 34](#) for additional comments on the figures shown.

## Notes:

Figures shown in the tables are preliminary and subject to change due to record review.

The target for all sites is 90% for 2019 and has been implemented as a part of the Western Australia Emergency Access Target (WEAT).

WA health system refers to the public health system in WA as defined in Section 19(1) of the *Health Services Act 2016*. The WA health system comprises the Department of Health, Health Service Providers and contracted health entities 'CHE' (to the extent that CHE provide health services to the State).

\* Contracted Health Entities are Joondalup Health Campus, Peel Health Campus and SJOG Midland Hospital.

# Figures are rounded to one decimal place. The variance is calculated using actual numbers that contain more than one decimal place, therefore the variance presented may be slightly different to those calculated using the rounded figures.

<sup>1</sup> Length of Episode refers to the duration in the emergency department which is counted from the time the patient presents to a staff member (nurse, clerk, etc.) to the time the patient leaves the emergency department.

## Western Australia Emergency Access Target (WEAT) – Reporting Data Definitions and Business Rules

### 1: Emergency department attendances

<b>Definition:</b>	The total number of all emergency department (ED) attendances.
<b>Guide for use:</b>	Includes all episodes where a patient presented at the emergency department and was registered in any manner in one of the electronic data collection systems.
<b>Purpose:</b>	To provide a fundamental measure of activity levels within emergency departments.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Emergency Department Data Collection (EDDC) (07/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

### 2: Emergency department attendances with length of episode (LOE) of four hours or less

<b>Definition:</b>	The percentage of all emergency department attendances where the time to admit, transfer or discharge the patient from the emergency department was within four hours of their presentation.
<b>Guide for use:</b>	Includes all valid attendances. Excludes patients that had an invalid presentation or departure time. Data is expressed as a percentage. Length of episode is counted from the time the patient presents to a staff member (nurse, clerk, etc.) to the time the patient leaves the emergency department.
<b>Purpose:</b>	To monitor and improve timely access to emergency care for all emergency department attendances.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Emergency Department Data Collection (EDDC) (07/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

### 3: Emergency department admissions with length of episode (LOE) of four hours or less

<b>Definition:</b>	The percentage of all admissions from the emergency department where the time to admit the patient to a ward was within four hours of their presentation.
<b>Guide for use:</b>	<p>An admission process is the process whereby the hospital accepts responsibility for the patient's care and/or treatment.</p> <p>Includes all attendances that were admitted.</p> <p>Excludes patients that had an invalid presentation or departure time.</p> <p>Data is expressed as a percentage.</p> <p>Length of episode is counted from the time the patient presents to a staff member (nurse, clerk, etc.) to the time the patient leaves the emergency department by being admitted to a ward (including Short Stay Unit).</p>
<b>Purpose:</b>	To monitor and improve timely access to emergency care for emergency department patients who are admitted to a hospital inpatient ward.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Emergency Department Data Collection (EDDC) (07/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

### 4: Emergency department transfers with length of episode (LOE) of four hours or less

<b>Definition:</b>	The percentage of all emergency department transfers where the time to transfer the patient to another hospital was within four hours of their presentation.
<b>Guide for use:</b>	<p>Includes all attendances that were transferred to another hospital on ED departure.</p> <p>Excludes records with an invalid presentation or departure time.</p> <p>Data is expressed as a percentage.</p> <p>Length of episode is counted from the time the patient presents to a staff member (nurse, clerk, etc.) to the time the patient leaves the emergency department to be transferred to another hospital.</p>
<b>Purpose:</b>	To monitor and improve timely access to emergency care for emergency department patients who are transferred to another hospital.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Emergency Department Data Collection (EDDC) (07/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

**5: Emergency department departures with length of episode (LOE) of four hours or less**

<b>Definition:</b>	The percentage of emergency attendances who were discharged to home within four hours of their presentation.
<b>Guide for use:</b>	Includes all attendances that were not admitted or transferred. Excludes records with an invalid presentation or departure time. Data is expressed as a percentage. Length of episode is counted from the time the patient presents to a staff member (nurse, clerk, etc.) to the time the patient is discharged from the emergency department.
<b>Purpose:</b>	To monitor and improve timely access to emergency care for emergency department patients who are discharged to home.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Emergency Department Data Collection (EDDC) (07/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

**6: Percentage of in hospital mortality for admissions from emergency department**

<b>Definition:</b>	The percentage of hospital inpatients who were admitted from emergency department and subsequently deceased during the hospital stay.
<b>Guide for use:</b>	Excludes patients that are deceased in the emergency department who are not admitted and patients directly admitted to a hospital ward.
<b>Purpose:</b>	To monitor and improve quality of care for patients who are admitted to a hospital inpatient ward from emergency department.
<b>Includes:</b>	All participating WEAT hospitals. Refer to <a href="#">page 2</a> .
<b>Excludes:</b>	All other public and private hospitals.
<b>Data source:</b>	Purchasing and System Performance Division, Department of Health, WA.
<b>Data extraction:</b>	Inpatient Activity (06/05/2019).
<b>Report prepared by:</b>	Purchasing and System Performance Division, Department of Health, WA.

This document can be made available in alternative formats on request for a person with disability.
