The acts need to be updated to mirror the Victorian legislation as soon as possible.

Every one should have a right to know where they come from.

Many practices when I was conceived in the 1980s were unethical and wrong. This needs to be righted.

There is a wealth of information from a variety of knowledgeable and expert sources that supports my views. I shouldn't be required to waste so much personal time and energy on this. It is unnecessarily taxing and unfair.

Change the legalisation now so that I may find out my information.
